COURSES

UNDERGRADUATE

- Data Structures
- Database Management System
- Artificial Intelligence
- Computer Networks
- Object Oriented Prog.
- Operating System
- Programming in C / Python
- Data Mining & Warehousing

SKILLS

Languages

- Java • Python • C
- SQL • HTML/CSS
- PHP • XML • Kotlin
- JavaScript

Frameworks/Libraries

- React.js • Next.js
- Node.js • Express.js
- Jetpack Compose
- Django • Flask

Databases & Cloud

- MongoDB • MySQL
- SQLite • Firebase
- AWS • Google Cloud
- Oracle Cloud

Tools

- Git/GitHub • Vercel
- REST APIs • Copilot

HOBBIES

- Playing Kabaddi
- Playing games on pc

EXPERIENCE

INSTASAFE — SOFTWARE ENGINEERING INTERN

April 2026 – Present — Bhubaneswar, India

- Contributing to core codebase testing and onboarding initiatives utilizing professional QA and laboratory primer modules.
- Collaborating with development teams to analyze security frameworks and support application infrastructure scaling.

PROJECTS

AI WEBSITE BUILDER — NEXT.JS, GEMINI API, REACT

January 2026 – Present — Remote

- Developed an AI-driven platform using Next.js that automates responsive website generation from natural language prompts.
- Integrated Gemini and Groq APIs to orchestrate intelligent code parsing and dynamically structure tailored user interface layouts.

STEGANO-VAULT — PYTHON, REACT, LSB, AES-256

December 2025 – March 2026 — Remote

- Built a secure web application to conceal AES-256-GCM encrypted textual data into images using advanced LSB steganography.
- Engineered precise bit-level pixel manipulation logic in Python with a customized 32-bit header to guarantee 100 percent data integrity.

DOZO – MEDICATION APP — KOTLIN, JETPACK, FIREBASE

January 2026 – March 2026 — Remote

- Built a cloud-native Android app using Kotlin and Jetpack Compose incorporating clean architecture patterns.
- Implemented persistent data synchronization pipelines and structured secure user authentication via Firebase Firestore.

WARESYNC (INVENTORY) — HTML, CSS, PHP, MYSQL

December 2025 – March 2026 — Remote

- Developed a full-stack inventory dashboard using PHP and MySQL to streamline warehouse logistics and tracking operations.

EXTRAS

TECH FEST — DESIGNING LEAD

- Spearheaded the visual design identity and complete digital/print branding assets for the university's annual technical festival.

XPLORE CODING CLUB — MEDIA LEAD

- Coordinated media strategy, digital outreach, and public relations execution to scale participation across coding hackathons.

CERTIFICATIONS — TECHNICAL TRAINING

- Earned the Delta (Full Stack Web Development) certification via Apna College.
- Completed Data Analytics with Python through NPTEL.
- Acquired OWASP SAMM Fundamentals credential for security protocols.
